

CAREER OBJECTIVE

Aspiring **Software Engineer** with project-based and internship experience in **machine learning**, and **full-stack development**. Eager to learn and contribute to building intelligent, scalable, and impactful software solutions.

WORK EXPERIENCE

ROTEN.X | AI Intern

Feb '25 – Present

- **Developing** an **AI-driven prosthetic hand** using **EMG** sensors to assist individuals with limb disabilities.
- **Collected** and **trained models** on EMG sensor data to **enhance** real-time **muscle signal** interpretation.
- Prototyped **AI-driven** hand band enabling communication for non-verbal users through **EMG-based gestures**.
- Trained AI models on 10,000+ EMG signals, achieving 87% accuracy in real-time muscle classification.

Qapp.ai | AI Dev – Intern

May'24 – July' 24

- **Developed** a **chatbot** capable of understanding and answering questions about any given **HTML website**.
- Designed a **clean, responsive chatbot UI** using modern tools, boosting **user interaction time by 30%** in testing.
- **Integrated** a **Large Language Model (LLM)** to enhance chatbot accuracy and context-awareness.

TECHNICAL SKILLS & TOOLS

Languages: PYTHON, C/C++, JAVASCRIPT, HTML, CSS

Databases and Backend: SQL, MYSQL, SQLITE, REDIS, CELERY

Tools: GIT, GITHUB, POSTMAN, LINUX, EXCEL, CANVA

Frameworks and Libraries: FLASK, VUE3, BOOTSTRAP, PANDAS, SCIKIT-LEARN, NUMPY

Core CS Concepts: DATA STRUCTURES AND ALGORITHMS (in C++), MACHINE LEARNING, OS, DBMS

KEY PROJECTS

Quiz Master App (IQManthan) | *Vue 3, Flask, SQLite, Redis, Celery, Bootstrap*

- Implemented **role-based modules** for admins and users to **create, manage, and attempt** quizzes in real time.
- Integrated **Redis** and **Celery** for background task management, **email notifications**, and real-time **Google Chat alerts**.
- Automated **monthly user reports** and **enabled CSV export functionality** for user quiz data.

System Threat Forecasting (Kaggle) | *Python, Scikit-learn, Pandas*

- Built and trained a supervised learning model to detect **system-level infections vs. clean systems**.
- Achieved a **62% detection accuracy** in identifying threats from system logs and activity data.
- Used **feature engineering** and **hyperparameter tuning** to enhance real-time classification efficiency.
- Ranked in the **top 20% of Kaggle submissions** in the challenge.

Capstone Project – Sales & Stock Optimization | *Excel, Python, SQL*

- Conducted research on a live company’s sales, purchase, and stock data.
- Identified inefficiencies and optimized stock management to increase sales.
- Improved **inventory turnover rate by 18%** and reduced **stock wastage by 25%**, directly impacting revenue growth.

E-Library Management Application (Akshardham) | *Python, Flask, SQL*

- Built an e-library management system using **Python, Flask**, and **SQL** for seamless library operations.
- Implemented a **database** for efficient storage and retrieval of books and user data.
- Designed a **responsive UI** for easy browsing, borrowing, and returning of books online.

EDUCATION

Institute Of Technology and Management, Gwalior | B.Tech | 2022–2026 | Artificial Intelligence and Machine Learning | CGPA: 7.83/10

Indian Institute of Technology, Madras | Diploma in Programming | 2022–2025 | Majors: Data Science | CGPA: 7.15/10

Indian Institute of Technology, Madras | Diploma in Data Science | 2022–2025 | Majors: Data Science | CGPA: 8.08/10

St. Mary Orthodox School, Kanpur | Intermediate | Matriculation

EXTRACURRICULAR ACTIVITIES

Management Lead, Google Developer Groups on Campus: Organized events and workshops for Google Developer Groups.

NCC Cadet: Completed rigorous training, demonstrating leadership and discipline.

Academic Excellence: Earned multiple B.Sc course badges for top performance and academic awards in B.Tech course.

Google Cloud Contributor and Google Arcade Contributor: Completed hands-on labs and certifications.

Extra-Curricular Activities: Volunteered at college events (job fair, fest); Relay Race Gold Medalist (Inter-School).
